Leadership and Crisis: Jewish Resources and Responses

*Beit Midrash for 2010 with
Rabbi David Thomas*

How does the Jewish world respond to crisis and what does our tradition teach us?

Finding ways to respond to the crisis of economic misfortune, disaster and war is a challenge for everyone. For the first time in the Boston area the world-renowned Shalom Hartman Institute offers a lecture series to enhance the knowledge and engagement of lay leaders, expanding their ability to respond to key questions facing the Jewish people and contemporary society.

With guidance from Rabbi David Thomas, you will have the unique opportunity to study with world-renowned scholars Donniel Hartman, Micah Goodman, Melilah Hellner-Eshed and Rachel Sabath Beit-Halachmi.

"Leadership and Crisis: Jewish Resources and Responses," is a study program comprising eight lectures on DVD, study materials in both Hebrew and English, and interactive resources designed to help Jews re-establish moral and ethical awareness during crisis.

The first 25 people who register for the program will receive a one-year subscription to Havruta magazine, published by the Hartman Institute.
